We are pleased to announce that we are now accepting applications for the Research (PFSRs) provide students with the opportunity to engage in an intensive research project with a full-time faculty mentor during a ten-week period in the summer.

Please read this announcement carefully as there are <u>several important changes</u> taking place in the program this year after consultation with the Faculty Research Committee and the Faculty Senate.

There will be a total number of at least **seven (7) grants awarded** this year. Students and faculty from all disciplines may apply, while two of these will be dedicated specifically to projects that stem from the **Humanities (one award)** and the **Social Sciences (one award)**. The faculty honorarium will remain at \$1,500. While it is generally expected that a faculty member would serve as the mentor for only one project, in the event that one faculty member is serving as a mentor for more than one awarded project they will receive **one honorarium**.

The Office of Research Support and Sponsored Programs will administer the program. In addition to the faculty mentor honorarium, \$3,000 will be provided to the student, with an additional stipend of \$1500 to cover the cost of a room on campus for the ten-week period, if needed, and \$500 is allocated for materials and/or student travel.

- Research proposals are to be prepared by students with faculty mentor assistance.
- Each proposal must be typed in 12-point font, double-spaced, and include:
